

September 20, 1957

Dear Dan:

We return duly executed original and one copy of contract NY-B-5111C.

As discussed by phone on 5 September 1957, we are taking exception to Part IV, Partial Payment. In view of the fact that the instruction book cannot be prepared until after the evaluation of units 1 to 10, we ask that payment not be withheld pending delivery of the instruction books. We plan to provide existing 5111 instruction books with each sextant until the new instructions can be prepared.

Also, by way of clarification, it is our understanding that copies of original freight invoices with a reference to specific shipments and our check number under which paid will satisfy the requirement of Part III for "receipted copies of prepaid shipping documents."

If you concur with the exceptions taken above in paragraph 2, please advise us accordingly.

Very truly yours,

STATINTL
